Lecturers / Resource People

Week 1: GDPFS (11-15 Nov 2013)

- ✿ *Dr Winifred Jordaan, Course Director (RTC Pretoria)*
- ✿ *Mr Eugene Poolman, Programme Leader (SAWS)*
- ✿ *Mr Laurie Wilson, International Expert (Canada)*
- ✿ *Mr Ezekiel Sebego, Dr Estelle de Coning,
Ms Stephanie Landman, Mr Morne Gijben,
(SAWS)*

Training Goal

*To enable forecasters of Southern Africa to effectively utilise **deterministic and probabilistic NWP products** to produce better forecasts and severe weather warning services, thereby contribute to the goals of **disaster risk reduction**, in the context of the SWFDP project.*

Training Objectives

GDPFS (Week 1)

- Update and broaden the knowledge of operational forecasters to ensure the optimal use products of NWP, the Ensemble Prediction Systems, Nowcasting, Verification with emphasis on forecasting hazardous weather conditions.

Public Weather Services (Week 2)

- To provide knowledge related to improved PWS, including improved relations with stakeholders, coordination with the media and emergency management, practical session on media and communication skills and service assessment.

GDPFS Topics (first week)

- ✓ The SWFDP – Southern Africa
- ✓ Global NWP models and their products
- ✓ Regional and Limited Area NWP models and their products, and other guidance
- ✓ Ensemble Prediction Systems (EPS) and Probabilistic Forecasting
- ✓ Nowcasting using MSG
- ✓ Forecast Verification
- ✓ Lots of practical sessions
- ✓ Open discussion and operational review

***ALL PRESENTATIONS WILL BE AVAILABLE ON THE
RSMC WEBSITE.***

PWS Topics (second week)

- ✓ Describing YOUR Public Weather and Warning Services
- ✓ Building partnerships between NMHSs and Disaster Management Authorities
- ✓ Communication of warnings
- ✓ Media skills – full day practical session
- ✓ Evaluation of services

ALL PRESENTATIONS WILL BE AVAILABLE ON THE RSMC WEBSITE.
